**FRANKLIN WOO**

**“THE RISE OF CHINA: A GROWING THREAT; A POTENTIAL PARTNER”**

In 1960 (“World Refugee Year”) Jean and Frank were fraternal workers in Hong Kong. Frank headed a job-corp program which provided scholarships to 400 refugee college students, who in turn worked in projects (mostly roof-top schools) run by churches which served thousands of refugee children. In 1965 Frank was asked to be chaplain and lecturer in philosophy and religion at one of the three foundational colleges which formed the then newly created Chinese University of Hong Kong in 1963. He was also associate minister to an urban and two rural churches. Jean engaged in social work at our Presbyterian-related agency and also assisted in student work at the college. From 1976-1993 Frank was the director of the China Program of the National Council of the Churches of Christ in the USA, where he and Jean were bridge-builders in US-China relations by taking groups of US Christians to China and its leaders to America. For a decade they also prepared hundreds of US teachers of English to China. (The Woos became part of our MVGH community in 1996.)

Topics will include: What is evangelicalism, and how does it manifest itself within the mainline church? Why are all the “split P's” (Presbyterian denominations that divided away from the mainline Presbyterian Church) conservative and/or evangelical in nature? And, what is the future of evangelicalism in the PC(USA)?
